# Samantha Piper

207-660-8045 | sampiper119@email.com | www.linkedin.com/in/samantha-piper-nmid

## OBJECTIVE

Seeking a creative technology co-op/internship utilizing skills in front-end development (HTML, CSS, vanilla Javascript), UI/UX design (Figma, Canva), and graphic design (Adobe Illustrator). Available Summer 2027.

## COMPUTING EDUCATION

**Rochester Institute of Technology, College of Computing and Information Sciences** **Rochester, NY**
Bachelor of Science, New Media Interactive Development Expected May 2029

- GPA: 3.74
- Dean's List Spring 2026
- Awarded Presidential Scholarship
- Relevant Coursework: Interactive Design and Algebraic Problem Solving III, Introduction to Web Tech for Game Developers, New Media Design Digital Survey II, Discrete Mathematics, Principles of Advertising

## TECHNICAL SKILLS

**Languages** | HTML, CSS, Javascript, C#
**Tools** | Visual Studio Code, GitHub, Figma, Canva, Adobe Illustrator, Adobe Photoshop
**Operating Systems** | Windows, iOS, Android

## WEB DEVELOPMENT EXPERIENCE

Aumnia Group Inc. Picard, Portsmouth, St. Johns, Dominica
**Freelance Front-End Developer** **July 2026 – Present**

- Conducted client discovery and drafted a proposal to define site requirements, project scope, and design goals.
- Mapped user flows and created low-to-high-fidelity Figma wireframes, interactive prototypes, and a style tile to establish the site's visual direction.
- Currently developing the official website's front-end using HTML, CSS, and vanilla Javascript.

## PROJECT EXPERIENCE

**WordBlocks | *Sole Developer* |** Personal Project **September 2026**

- Developed a word-based puzzle game combining 2048-style tile mechanics with Scrabble-inspired word-building gameplay.
- Implemented word-building mechanics, word-validation, custom tile mechanics, a scoring engine, grid-clearing mechanics, and full-board scanning to support core gameplay.

**Botanic Bloom Bistro Website and BIS | *Sole Developer* |** Personal Project **August 2025, July 2026**

- Developed a concept website and complete brand identity system (business card, letterhead, and take-home menu) for an original fictional restaurant business on Notepad++ and Adobe Illustrator respectively.
- Crafted a responsive layout and connected visual system featuring consistent typography, clear visual hierarchy, and strategic CTA's.
- Developed simulated, interactive web features such as contact forms, and a dynamic, tab-system food menu to create a realistic user experience.
